WILDLIFE REVIEW

Kenneth J. Chiavetta, Editor
Terry N. Sexson, Assistant Editor

Editorial Office
U.S. Fish and Wildlife Service
Aylesworth Hall, CSU
Fort Collins, Colorado 80523

Wildlife Review, a quarterly, serves to alert wildlife biologists of current worldwide literature of wildlife management and conservation. Each issue contains separate Author, Geographic, and Subject indices. Beginning in 1981, an annual index volume with accumulative Author, Geographic, Taxonomic, and Subject indices will be issued; included will be a list of publications screened. Authors who publish in journals not screened for *Wildlife Review*, and who would like their publications included, should submit reprints to the Editor.

The U.S. Fish and Wildlife Service assumes no responsibility for the accuracy of material from outside sources.

WILDLIFE REVIEW

An indexing and abstracting publication
of wildlife literature issued by the
Fish and Wildlife Service
UNITED STATES DEPARTMENT OF THE INTERIOR

June 1981 Colorado State University, Fort Collins, Colorado 80523 No. 181

CONTENTS

Conservation
General..... 1
Bibliographies, directories, history, biographies..... 1
Plants
General, ecology, techniques..... 2
Habitat surveys..... 2
Wildlife
General..... 2
Techniques..... 2
Faunas, natural history, manuals.. 3
Natural areas & refuges..... 5
Endangered & threatened species... 6
Introductions..... 8
Morphology & physiology..... 8
Behavior..... 9
Mortality & survival..... 10
Pesticides & pollution..... 10
Parasites & diseases..... 10
Economics, damage, predation, control..... 11
Hunting--area & problems..... 12
Laws/Law enforcement..... 13
Management & research--general.... 13
Management - nongame..... 16
Wetlands & wildlife..... 16
Rangeland, tundra & wildlife.... 17
Environmental impacts & assessments..... 17
Mammals
General..... 20
Techniques..... 21
Faunas, communities, manuals..... 22
Morphology & physiology..... 24

Subject Index..... 331

AVAILABILITY OF REPRINTS AND PUBLICATIONS

Wildlife Review does not distribute any of the papers abstracted herein, nor can the editor of Wildlife Review undertake to obtain copies of these papers for anyone. A reprint of an article published in a journal may be available from the author, from the organization with which the author is affiliated, or from the publisher of the journal in which the article appeared. When an author's address is known, it is shown in square brackets following the citation. Addresses of most wildlife organizations can be obtained from the Conservation Directory, an annual publication available from the National Wildlife Federation, 1412 16th Street, N.W., Washington, D.C. 20036, at a price of $6.00 per copy. This directory lists more than 900 agencies and organizations concerned with natural resources use.

Use of funds for printing this publication approved by the Director of the Office of Management and Budget, March 3, 1976.

Camera copy for this issue of Wildlife Review has been generated by computer programs developed by the Editorial Office, U.S. Fish and Wildlife Service, Fort Collins, CO.

[Central Coll., Pella, IA 50219] Abstract: Of the 70 species of mammals reported from Iowa since European settlement, 39(55%) are extirpated, rare, or declining. Twenty-nine (42%) are not appreciably declining and 2(3%) are increasing in number and distribution. Continued pressure to clear and row-crop in as much land as possible is placing an increasing stress on the mammals of Iowa.

[Dep. Anim. Ecol., Iowa State Univ., Ames 50011] Abstract: Since the time of settlement, at least 17 species (9%) of birds have disappeared as nesters in Iowa. Nine species were lost before 1900, another two before 1950, and six since 1950. Five species have been successfully introduced into Iowa, and four of these now are abundant in the state. A number of other species have benefited from human development and have increased in numbers since settlement. An additional 29 species have populations that seem endangered or threatened and may disappear before the end of this century.

[Operation Baltic, Siemionki, 88-325 Wąbrzeźno, Poland] Abstract: 394 major papers on migration from 18 main North American and European journals have been analysed to show how often the particular field methods are used and various problems treated, and how often those methods are used separately or jointly to solve individual problems. An analysis of the applicability of various methods of data gathering to the solving of the particular problems is made, showing the necesstiy of complex usage of many methods. However, attempts at solving various problems are very often based on one method only, and the number of papers representing parts of bigger programs is small.

WILDLIFE ☆ U.S. GOVERNMENT PRINTING OFFICE: 1980—777-060/5

SUBSCRIPTION INFORMATION

Remit $19.00 ($23.75 Canada and foreign) for one year's subscription to:

The Government Printing Office
Superintendent of Documents
Washington, DC 20402

"Subscription to *Wildlife Review*" should be clearly written on the check.

U.S. Federal Agencies in wildlife-related fields and individuals or agencies who exchange domestic or foreign publications may receive free subscription to *Wildlife Review* by writing to:

Editorial Office—*Wildlife Review*
U.S. Fish and Wildlife Service
270 Aylesworth Hall, CSU
Fort Collins, CO 80523

CHANGE OF ADDRESS

If WR is the first entry on the first line of your address label, send your new address and your former address *exactly* as it appears on your mailing label to:

The Government Printing Office
Superintendent of Documents
Washington, DC 20402

If a 5-digit number appears as the first line of the label, send your new address and your former address *exactly* as it appears on your mailing label to:

Editorial Office—*Wildlife Review*
U.S. Fish and Wildlife Service
270 Aylesworth Hall, CSU
Fort Collins, CO 80523

As the Nation's principal conservation agency, the Department of the Interior has responsibility for most of our nationally owned public lands and natural resources. This includes fostering the wisest use of our land and water resources, protecting our fish and wildlife, preserving the environmental and cultural values of our national parks and historical places, and providing for the enjoyment of life through outdoor recreation. The Department assesses our energy and mineral resources and works to assure that their development is in the best interests of all our people. The Department also has a major responsibility for American Indian reservation communities and for people who live in island territories under U.S. administration.
